

PCT-1 Cut Sheet

Features

- Suitable for wide range of applications: Hydroponics, Aquariums, Laboratory etc.
- 3.6-meter long cable for flexible placement.
- Mini DIN terminal allows direct connection to AMP-2 Sensor Board.

Overview

The TrolMaster EC & Temperature probes provide accurate and reliable monitoring on the EC and temperature of the water being monitored by the Aqua-x. The PCT-1 probe connects to the Aqua-x via the AMP-2.

M Product Specifications

Package Content

1 x Reservoir EC/Temp Sensor

Working Environments

Temperature 32-122°F, Humidity=90%

Package Dimensions

275mm(L) x 85mm(W) x 95mm(H)
