

BETA-2 Cut Sheet

Features

- Built-in Photocell detecting day&night status
- LED display , easy operation
- Increases or decreases fan speed based on setpoint
- Sensor with 16ft long cable for close placement to plant canopy

Overview

The BETA-2 can control variable-speed fans by using the current temperature to increase or decrease the fan speed. By increasing the fan speed, cooling is increased... decreasing fan speed will reduce cooling capacity. Using the BETA-2 in this way provides a VERY economical and efficient way of dealing with heat within an enclosed space.

M Product Specifications

Dimensional Diagram

Package Content

1 x Fan Controller

1 x Temperature Sensor

Input Voltage

120 Volts AC

Fuse Rating

6A/250V

Working Environment

Temperature 32-122°F, Humidity <90%

Packaging Dimensions

275mm(L) x 85mm(W) x 95mm(H)

G.W. per pack

0.56kgs
