

# LMA-15 Cut Sheet

## *Features*

- LED Power Indicator
- Convert Digital Signal to Analog Signal
- Seamless Connection with Hydro-X with RJ12 Cable
- Plug & Play

## *Overview*

TrolMaster's Hydro-X system can control most of the horticultural lighting fixtures sold on the market today. Most light manufacturers provide the ability to control their lighting systems using what known as a low-volt control. That low-volt control can take many forms and communication protocols. TrolMaster makes several types of lighting adapters (LMA units) that allow the Hydro-x to control lights using their low-volt control option.

This LMA-15 lighting adapter is specially designed to control the DLI fixtures.

# M Product Specifications

## Dimensional Diagram

### Package Content

1 x Lighting Control Adapter DLI (LMA-15)

### Input Voltage

12V

### Maximum Current

0.2A

### Working Environment

Temperature 32-122°F, Humidity<90%

### Packaging Dimensions

156mm(L) x 83mm(W) x 30mm(H)

### G.W. per pack

0.05kgs
