BETA-6 Cut Sheet

Features

● Built-in Photocell detecting day&night status

● LED display , easy operation

● Alternative humidifying or dehumidifying function

● Sensor with 16ft long cable for close placement to plant canopy

Overview

The BETA-6 features a precision humidity sensor within a 16ft remote probe assembly. Simply plug in your humidity / dehumidify device to the power outlet on the bottom of the BETA-6. The user can select separate "day / night" humidity settings and the photocell built into the BETA-6 will automatically start controlling your device. (Settings from 20-90% rH) Either humidifiers or dehumidifiers can be controlled by the BETA-6.

Product Specifications

Package Content

1 x Humidity Controller

1 x Humidity Sensor
