• Transportation

Improper transportation may harm or can even cause damage to LED lamp and power housing box). In case of obvious damage or incomplete scope of supply, please refer to your vendor and Haulage company immediately.

• Unboxing

Please handle and unbox the LED lamp with care! Check the delivery contents for completeness first. A detailed list of the product range is contained on the inner cover in this manual.

ugh transport or due to a long storage time, the LED-modules might get a little polluted. Therefore we recommend to clean the modules before each use with a dry and soft tissue.

7. Operation

Warning! This LED fixture is powered with electricity (AC110-277V)! To prevent injury, we ask you to desist from improper use!

•• Never open the case of the device! Health hazards await the consumer and the warranty of the device

expires.

7.2 Putting into service

Operate the LED fixture only horizontally, while hanging or slightly angled (approx. about 20°). Deploy the LED lamp fixture about 30-60cm above the top of the plants;

7.3 Proper use

Do not use the LED fixture vertically or as illumination device upside-down (direct eye contact and long exposure over time may cause permanent damage to your eyesight!).

We don't advise you to deploy the device as a room illuminant. It is exclusively designed and developed for plant breeding, cultivation and hibernation. Please ensure that the LED fixture is being operated out of sight and out of reach of children and animals to protect their eyes!
