Assembly instructions.

Product content:

Details of elbow joints

Cupboard cover
(door with zipper)
x 1

1 x 3
Cupboard sides

Carrying bag
x 1

WARNING: MAKE SURE THAT THE BAR HAVE ENTERED TO THE BOTTOM OF THE ELBOW AND NEVER FORCE THE CANVAS. FOR 80 CM. AND 1 M. MODELS: BE SURE NOT TO MIX THE a AND b BARS UP, IT COULD DAMAGE THE STRUCTURE OR THE MATERIAL.

1

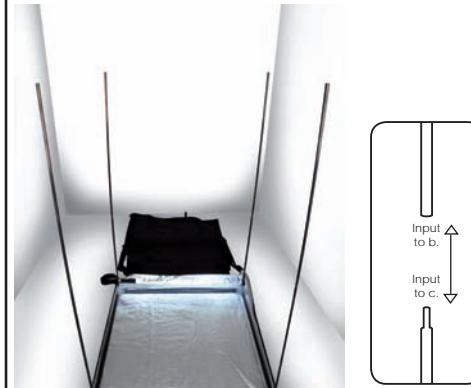

1. Open all zippers on canvas. Assemble the bars with elbows within the cover forming a square base as shown in the photo.

2

2. Considering the correct orientation of the elbows put c bars in the position shown in the photo.

3

3. Then assemble the bars b on c, such as is explained in the scheme. B input, c input.

4

4. Assemble the structure that will support the cupboard roof, making a rectangular shape (Pay attention to the orientation of the elbows and make sure that the bars have come to the bottom of them).

5

5. Pass the cover over, covering the roof of the cupboard. Pay special attention to the corners to avoid the material is wound around them. To simplify the operation **START PUTTING THE LOGO CORNER ON AND REMEMBER NOT TO FORCE THE CANVAS.**

6

6. Close zippers to tighten the cover and stick the sides with Velcro, making sure that the rectangular vents are placed at the bottom of the cupboard.
